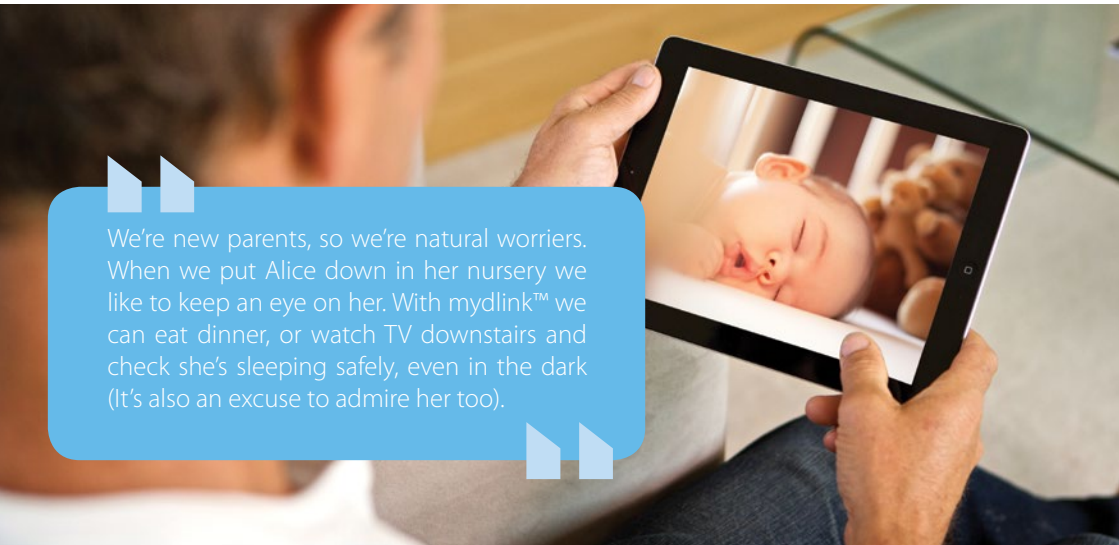
Keep an eye on your little ones with a mydlink™ EyeOn™ Baby Monitor

The EyeOn™ Baby Monitor range has been specially designed to help you keep an eye on your baby or toddler, night and day.

The EyeOn™ range offers a baby monitor to suit any parent's needs and budget. With more functionality than ordinary audio monitors, the EyeOn™ Baby Monitor range brings peace of mind for parents.

These portable cameras transform your smartphone or tablet into a versatile, yet easy to use baby monitor. Connect to the monitor wirelessly at home or through the Internet from anywhere at any time, so you can check on your infant no matter where you are.

The monitors are packed with features to help you care for your child, including motion, sound, and temperature monitoring, as well as night vision, automatic snapshots and recording. They can even play gentle lullabies to help ease your baby to sleep!



We're new parents, so we're natural worriers. When we put Alice down in her nursery we like to keep an eye on her. With mydlink™ we can eat dinner, or watch TV downstairs and check she's sleeping safely, even in the dark (It's also an excuse to admire her too).

Watch your little ones playing in the garden

"The children love being out in the garden, but I can't be out there with them every second of the day. The EyeOn™ Baby Monitor is portable so I can still keep an eye on them playing, while I'm in the kitchen.

I don't have power in the garden so I simply connect my camera to an external USB battery, log into my account and I can access the camera on my iPhone. This is perfect when I'm cooking, because I can just pop my iPhone on the worktop and glance over whenever I need to, I love it."

More reasons to love the EyeOn™ Baby Monitor range*

- HD Day & Night Vision, so you can see your baby, even in the dark
- See, listen and talk to your little ones, wherever you are
- Easy access from your smartphone or tablet with the mydlink™ Baby app
- Listen to your baby continuously, even when your phone is locked
- Receive alerts for motion, noise, or temperature changes
- Secure connection for a private monitoring experience

See up to 5m in the dark

Digital zoom up to 4x from your mobile device

Check in on your baby using your smartphone or tablet

*Refer to the comparison table on the back of this leaflet for a full list of model features.

Stay close to your family

My job takes me all over the world, so I'm often away from home. Thanks to the EyeOn™ Baby Monitor I can still keep an eye on my family and our baby daughter while I'm on the go.

With the mydlink™ Baby app on my iPhone, I can say goodnight from the train, check they're sleeping soundly from my hotel room, or catch a glimpse of baby Alice while I'm on my lunch break."

Easy set up - simple to use

Getting started is a snap; the free mydlink™ Baby app for your mobile device not only guides you step by step through the setup process, but also gives you an easy to use interface for all the advanced features of the EyeOn™ Baby Monitor range. Check on your baby at a glance, pinch to zoom in and out with ease, or play one of five gentle lullabies to soothe your child. You can even take snapshots and video clips and save them directly to your mobile device!

EyeOn™ Baby

Secure Connection

Secure wireless connection and remote access prevents unauthorised access.

Sound/Motion Detection

Be alerted when your baby cries or has woken up and is moving around the cot.

4x Digital Zoom

Pinch to zoom in and out with ease.

Two-way Audio

The two-way audio feature allows you to talk to your baby through the built in microphone and speaker.

MicroSD card* slot

Auto-recording when motion or sound detected.

Instant Push Alerts

Receive automated email alerts based on your pre-set requirements directly to your mobile device if there is a loud noise such as crying, movement or if the room becomes too hot or too cold.

High Definition

HD 720p

You get a sharp 720p HD picture thanks to the megapixel camera sensor, and night vision mode turns on automatically when it gets dark, so you can monitor your child day or night.

Temperature Alerts

The temperature sensor LED changes colour to alert you if the baby's room temperature falls or rises beyond a set range and sends you alerts.

Perfectly Portable

Place or mount your EyeOn™ Baby Monitor anywhere in the home or garden or even on the go when visiting family and friends or on holiday. You can even connect your camera to an external USB battery for total portability.

Snapshots and Video

Capture and save all those precious moments to share with family and friends. Not only do you get pictures but also video, which can be sent directly to your smartphone or tablet.

Play a lullaby

Comes equipped with 5 classic lullabies and playback function. Select and play a soothing lullaby directly from your smartphone or tablet and adjust the volume and set-up a timer to stop the music for when baby goes to sleep.

* MicroSD card not included.

Two-way Audio

Day & Night Vision

WaterAid

Peace of mind when it comes to safe water.

Every purchase will help to transform lives.
For some, peace of mind is as simple as safe, clean water.

When you buy a mydlink™ EyeOn™ Baby Monitor, €1.00 is donated to WaterAid. In the world's poorest communities, safe, clean water can be the difference between life and death for a new mother and her baby. Every purchase will help to transform lives.
